BOARD MEETING AGENDA ITEM - HISTORY/COMMENTARY	
ITEM TITLE: Motion to Award Bid 2017-01 Sanitary Sewer Televising and Cleaning of Basin C & D Contract to Hydro-Vision Technology LLC	AGENDA DATE: 03/2/2017
ITEM REVIEW	
TO:	Mayor & Village Board
THROUGH:	Al Stonitsch, Village Administrator
FROM:	Chris Bethel, Director of Public Works
INITIATOR:	Jeff Moline, Asst. Director Public Works

ITEM HISTORY:

Notice published in the Daily Herald on February 1, 2017 with a Bid Opening Date of February 16, 2017.

Number of Bids received: 5

ITEM DISCUSSION:

This capital maintenance project is budgeted in account number 501-3147-460-600 as part of the overall sanitary sewer maintenance and rehabilitation program. This project entails flushing and full cleaning, including root removal and televising with a report generated of the condition of the 172,200 linear feet that makes up Basin C & D (Woodridge Basin Map Attached – generally all sanitary north of 75th Street, excluding The Highlands Subdivision and Seven Bridges). There is \$200,000 budgeted in CY 2017 for TV and Cleaning of two basins plus Sewer Capital Rehabilitation funds of \$300,000 (the majority of which is dedicated to point repairs and lining) to cover the additional low bid cost of \$216,950.58. Originally, Basins C and F (a smaller basin that spans the Seven Bridges area) were planned for 2017 with a budgeted figure of \$200,000. However, due to more sewer responses and issues in Basin D, Public Works advanced Basin D to 2017 and will target Basin F for early 2018. Basin F is a newer basin comprised of mostly plastic pipe. In 2013, stretches of Basin F were televised and cleaned as spot audit of the system and were found to be in overall good condition.

This basin cleaning and televising program is a major tenet of the overall capital improvement program for the system as it completes the needed routine heavy cleaning, and the televising enables a detailed inspection of the system for problems in need of repair. In past years, the Village completed the cleaning and televising of one basin per year. Beginning in 2017, the program had been revised to include a second basin in 2017 in order to cycle through the basins in 4 to 5 years due to aging infrastructure. Additionally, the bid requested the contractor extend the unit pricing for additional service at the same unit price for additional work that arises in other Village basins as well as extending the same unit pricing for private multi-family complexes at the complex's cost if they are interested.

Public Works has reviewed the five (5) bids that were received in response to bid #2017-01, Sewer Televising and Cleaning – Basin C & D. The bid summary is as follows:

Motion No.

#	Company	Bid Amount:
1	Visu-Sewer	\$ 253,944.92
2	Sheridan Plumbing	\$ 351,569.85
3	Hydro-Vision Technology LLC	\$ 216,950.58
4	National Power Rodding	\$ 234,972.90
5	Michels Corporation	\$ 343,428.85

The low bid from Hydro-Vision Technology LLC at \$216,950.58 was responsive to all bid requirements. Hydro-Vision has done multiple jobs for the Village including the 2014, 2015 and 2016 Televising and Cleaning Project of Basins B, E, and A respectively and post storm televising and cleaning. Hydro-Vision has been professional, efficient, and completed high quality work.

Public Works recommends that the Village Board award bid 2017-01, Sanitary Sewer Televising and Cleaning of Basin C & D to Hydro-Vision Technology, LLC in the amount of \$216,950.58.
